Miniso (9896 HK, HK\$47.34, HK\$58bn) Q2 SSSG turned positive

2Q25 results beat guidance. Revenue grew 23% YoY to RMB5.0bn, higher than the previous guidance of 18-21% YoY growth, thanks to improved SSSG across all businesses. Excluding the RMB119mn loss from Yonghui, the adjusted net profit was up 11% YoY to RMB692mn. GPM reached 44.3%, up 0.4ppts YoY, mainly due to higher contributions of overseas markets. However, the adjusted NPM decreased to 13.6% in 2Q25 from 15.5% in 2Q24, primarily due to a 40% YoY increase in S&M expenses for investment in overseas self-operated stores. The company declared an interim dividend of 7.24 US cents per share, with a payout ratio of 121%.

Improved SSSG across all businesses. Subsequent to a MSD decline in Q1, the overall SSSG turned positive this quarter. Domestic SSS has recovered steadily since the beginning of the year, reaching LSD growth in Q2 and accelerating further in Q3 to date. Overseas SSS improved to a LSD decline from a MSD drop last quarter. Notably, the U.S. market achieved MSD SSSG in Q2. Meanwhile, Top Toy also delivered LSD SSSG during the quarter.

Open larger stores and prioritize store efficiency. As of 30 June 2025, total stores count grew 137 HoH to 7,905, comprising 4,305/3,307/293 of Miniso China/Miniso Overseas/Top Toy, up 30/94/13 HoH, respectively. In Miniso China, following the closure of underperforming stores in Q1, franchisees resumed store openings in Q2. The new openings during the quarter were mainly larger-format flagship stores and MINISO LAND outlets, while normal stores were primarily deployed in Tier 3 and lower-tier cities.

For Miniso overseas, the company plans to open more than 500 overseas stores in 2025. However, it will slow down on the expansion of self-operated stores. Approximately 35% of new openings will be self-operated stores, compared to its previous guidance of 40-45%. Meanwhile, Miniso will concentrate new stores in densely populated areas to improve logistics efficiency.

Revised up FY25 guidance. Overall revenue growth is now projected at 25% YoY (vs. 23% previously), and adjusted operating profit is expected to be in the range of RMB3.65-3.86bn(vs. RMB3.6-3.8bn previously). In terms of Q3, on the back of a surprising improvement in SSSG, revenue growth is expected to accelerate to 25-28% YoY. Adjusted operating profit is anticipated to deliver DD growth YoY.

Our view: In the near term, MINISO will focus on improving SSSG and developing its own IP products. The company plans to leverage its global distribution channels to promote proprietary IPs. Currently, the company has signed contracts with nine trendy toy artists, including three core IPs Nommi, Honey, and MayMei. Additionally, the new IP, Yoyo Jiang, quickly sold out upon its June release. Its mega-store strategy and compelling IP portfolio may unlock growth potential. The counter is trading at 19.1x FY25E P/E. (Ensley LIU)
