A notable shift in store operation model. Total store numbers grew by 5% YoY to 2,117 as at the end of June 2025. There were 961 JNBY stores, 308 CROQUIS stores, 513 jnby by JNBY, 261 LESS, 52 stores for emerging brands and 22 JNBY+ collection stores. Self-operated stores decreased by 4% YoY to 492 while franchised stores increased by 8% YoY to 1,625. This was primarily due to the conversion of some self-operated stores into distributor-operated franchised models. Strategically, self-operated stores remained focused on high-tier markets whereas franchised stores targeted lower-tier cities.

Our view: JNBY is expected to remain resilient, supported by its strong design capabilities, loyal fan base, and robust growth from emerging brands. However, market concerns about its inventory level, which increased by 24% YoY to RMB933mn. This may reflect ongoing softness in the core JNBY brand and younger brands such as LESS and CROQUIS. Although management maintained its FY26 GMV guidance of RMB10bn, the shift from self-operated to franchise stores may lead to slower revenue and profit growth despite GMV expansion.

While JNBY continues to offer an attractive dividend yield of 7%. The company holds a net cash position of RMB263mn with no debt, and the management is confident to sustain a payout ratio of around 75%. The counter is currently trading at an undemanding 9.7x FY26E P/E.
